Hers was a pallid face. The great brown eyes wore a half-sad, half-frightened look. She got hardly more than a passing glance from the people met in Centre street, yet she was walking to the stern tribunal which was to try Ber for her life.

The girlish little creature was Annie Walden, who shot and killed her husband, Jimmie Walden, the boy turfman and nineteen-year old son of old Jeter Walden, and nephew of Wyndham Welden, famous trainers of race

She is in reality hardly more than a girl, for she is not yet twenty-one, years old. She seems to have had no girlhood, for she had attained a questionable sort of fame long before

she married Jimmie Walden in Camden while both were on a spree last September. Annie was known to men who frequent the race tracks as "Kittle Marshall," who bet her money on the norses just like a man, only more recklessly and with phenomenal luck.

She had been the heroine of at least one liaison before she met Jeter Walden's boy, in honor or otherwise of a Brooklyn man with Three other young women in black greeted

Seven juors had been found in two hours yesterday afternoon. Assistant District-Attorney Wellman had declared his satisfaction with them, and William F.
